Supervisory Board Remuneration Policy

Introduction

The Just Eat Takeaway.com Supervisory Board remuneration policy applies to the members of the Supervisory Board Just Eat Takeaway.com N.V. (the “**Company**”).

The Supervisory Board draws up the Supervisory Board remuneration policy based on advice from its remuneration & nomination committee (the “**RNC**”). In case of proposed adjustments, the proposed remuneration policy will be put forward for adoption at the General Meeting.

The main objective of the Company’s Supervisory Board remuneration policy is to attract and retain members of the Supervisory Board, taking into account the nature of the Company's business, the Supervisory Board's activities and the desired expertise, experience and independence of the Supervisory Board members, as set out in the Profile of the Supervisory Board.

The policy aims to reward Supervisory Board members to utilise their expertise and experience to the maximum extent possible, to execute the responsibilities assigned to them including but not limited to the responsibilities imposed by the Dutch Civil Code, the Articles of Association and the Dutch Corporate Governance Code. To the extent practicable, the requirements of the UK Corporate Governance Code (UK CGC) are also incorporated.

To the extent applicable, the same policy principles are applied for the Supervisory Board as for the Management Board. This implies, among others, that the policy takes into account the Company’s strategy, long-term interests and sustainability, identity, mission and values of the Company. More detail is provided in the Management Board remuneration policy.

On this basis, the remuneration for Supervisory Board members consists of the following elements:

- A fixed fee and a committee fee, which varies for the chairman, (vice-chairman) and members, to reflect the time spent and the responsibilities of the role;
- A travel fee to compensate for the additional time commitment for Supervisory Board members due to travelling (when meetings are held outside their country of residence).

In preparing the remuneration policy and to determine the remuneration of the members of the Supervisory Board, the RNC uses external benchmark information to assess market comparability of the remuneration. For this purpose, the same market is used as for the Management Board.

The level of support in society for the remuneration policy that the Company applies is important to us and is taken into account when formulating the various elements of this remuneration policy. The Supervisory Board has considered the external environment in which the Company operates, the relevant statutory provisions and provisions of the DCGC and - to the extent practicable - the UK CGC, competitive market practice as well as the guidance issued by organisations representing institutional shareholders and proxy advisors. Furthermore, advice has been obtained from an external remuneration expert.

At least every four years, the Company will submit the remuneration policy to a vote by the general meeting, upon a proposal of the Supervisory Board following the recommendation of our RNC. In case of a revision of the remuneration policy, a description and explanation will be presented of significant changes, including the rationale for those revisions and other aspects as required by Dutch law or the DCGC. It is the Company’s policy to seek input from organisations representing institutional shareholders.

2. Loans, advances or guarantees

Neither the Company nor any of its group companies provide any loans, advances or guarantees for the benefit of the Supervisory Board members.

The RNC expressly reserves the right to authorise such activities and reimbursement of associated expenses within its agreed policies.

Consideration of stakeholders' views

The Supervisory Board remuneration policy has been prepared to be well aligned with the external environment in which the Company operates as well as with all applicable rules, regulations and best practices. The Company is aware of the public debate surrounding the topic of remuneration, including the debate on internal pay differentials, and strives for broad stakeholder support.

Each year the Supervisory Board at the proposal of the RNC takes into account the approval levels of remuneration-related matters at our annual general meeting in determining that the current Supervisory Board remuneration policy remains appropriate for the Company, and considers any specific representations made by our shareholders on pay matters.

The Supervisory Board seeks to build an active and productive dialogue with investors on developments on the remuneration aspects of corporate governance generally and any changes to the Supervisory Board pay arrangements in particular.

The Supervisory Board remuneration policy will be reviewed from time to time. At least every four years, the Company will submit the remuneration policy to a vote by the general meeting. It is the Company's policy to seek input from organizations representing institutional shareholders in case significant changes to remuneration arrangements are proposed.

Remuneration committee

In case the Supervisory Board has not installed a remuneration committee, any duties of the RNC set forth in this remuneration policy will be carried out by the Supervisory Board.
