- Just Eat Takeaway.com further strengthened its market leading positions by significantly investing in its most important countries. This led to strong and accelerating growth both in Marketplace Orders as well as in its Delivery business, combined with a solid financial performance.
- The Company has put tremendous effort into improving the Just Eat UK business. The marketing strategy was changed and marketing investments have been increased. The UK sales force has doubled compared with the previous year, driving significantly increased restaurant choice for consumers, and accelerating

the roll-out of our logistical network. Scoober has only recently been launched in London and many cities in the UK will follow. This allows Just Eat to further add premium restaurants to its offering, with very short delivery times, excellent service, and much lower delivery fees than its competitors. Delivery Orders in the UK surged 387% in the fourth quarter of 2020 compared with the same period in 2019. Management expects that Just Eat's Delivery Orders only (excluding Marketplace Orders) will soon overtake the total food orders of the UK's #3 player.

- The Company has launched a new loyalty programme in Canada, which management believes will further support the high growth. In Germany and the Netherlands, order growth has been extraordinary, adding more than 12 million orders and ca. 4 million orders respectively in the fourth quarter of 2020 compared with the same period last year.
- Orders in Rest of the World grew 47% in the fourth quarter of 2020 compared with the same period last year, with Australia (+166%) in particular demonstrating outstanding performance.
- For the full year 2020, management expects revenue growth of more than 50% with an adjusted EBITDA margin of approximately 10%, reflecting significant investments in Delivery in the fourth quarter of 2020. To capitalise on the strong momentum from our investment programme, we will continue to invest heavily and prioritise market share over adjusted EBITDA.
- Just Eat Takeaway.com has implemented a wide range of measures to support restaurants, couriers, healthcare workers and charitable initiatives, resulting in ca. €45 million in support worldwide in 2020.
- All regulatory approvals relating to the Grubhub transaction have been obtained, and the Extraordinary General Meeting of Just Eat Takeaway.com approved the transaction on 7 October 2020. Subject to satisfaction of conditions, completion of the transaction is anticipated to occur in the first half of 2021.
